

Calcium Chloride Powder CAS 10043-52-4

Product Name: Calcium Chloride

CAS No.: 10043-52-4

EINECS No.: 233-140-8

Place of Origin: Shandong, China (Mainland)

Grade Standard: Food Grade, Industrial Grade, Reagent Grade

Purity: 74%, 77%, 94%

Appearance: flakes, prills, powder

Application: Oil Drilling, De-icing, Dust Control

Brand Name: DITAI

Chemical Name: CaCl₂

Color: Whiter

Package: 1000kg Bag

Grade: Industrial Grade

Certificate: ISO9001:2008

HS Code: 28272000

Item	Specific anhydrous ca chloride
calcium chloride CaCl ₂	95%min
sodium chloride NaCl	2.5%max
calcium hydroxide Ca(OH) ₂	0.25%max
calcium sulphate CaSO ₄	0.05%max
Water insoluble matter	0.2%max

Calcium Chloride Usage:

Oil and gas well fluids – to boost the efficiency of drilling and the completion of wells.

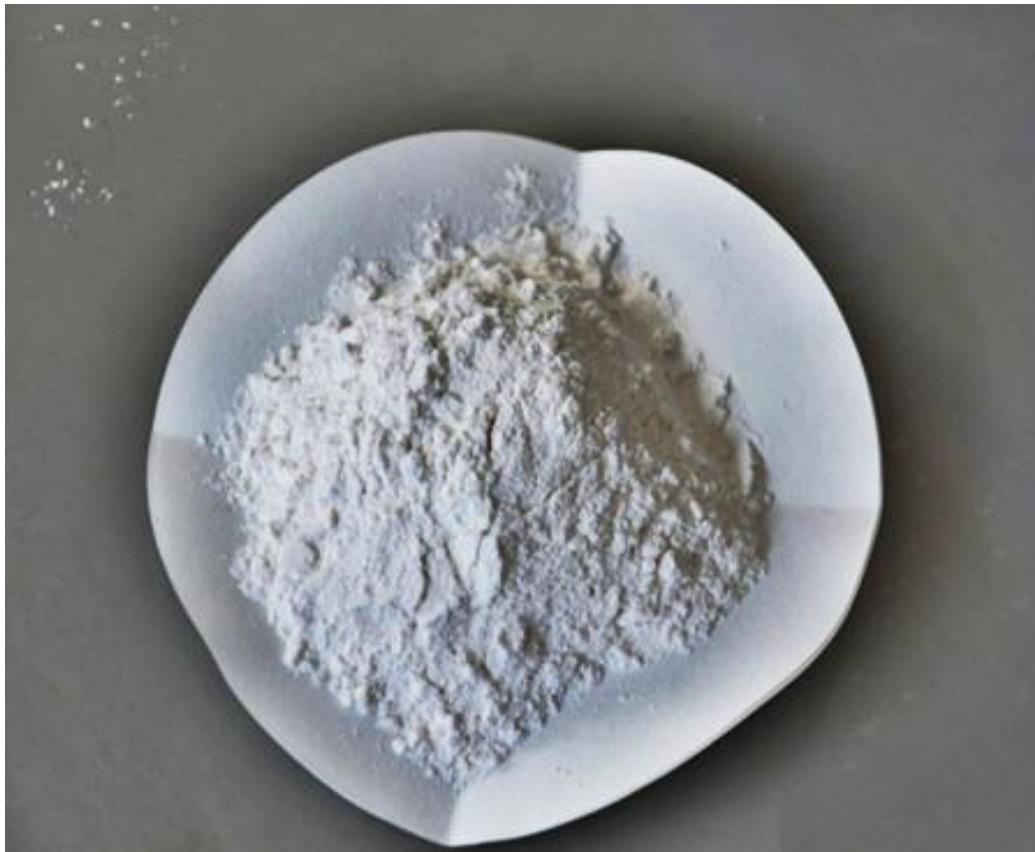

Deicing agents (deicers/snow melting agent) – for sidewalk, parking lot, airport and road treatments

Road stabilization and dust control

Accelerators in concrete – to increase curing speed

Industrial processing – as additives in plastics, for calcium salt production, drainage aids for wastewater treatment, etc.

Other applications – tire ballast, hydrocarbon desiccant, refrigeration brine, food processing agent or coagulating agent and additive for foods.

CALCIUM CHLORIDE 96% MIN POWDER (CaCl₂)
N.W.: 25KG

G.W.: 25.1KG

DATE OF MANU: SEP.01, 2015

DATE OF EXPIRY: SEP.01, 2017

LOT NO.: DS150905
